We are Spand, a leading and popular wellness company based in Indore, Madhya Pradesh. Spand is into curation and production of Ayurvedic wellness products. What makes us unique is that all our products are hand-crafted in our workshop and made from top-quality ingredients.

Sushruta, the father of Ayurveda, defined a quality drug to be the one that is born in a fertile land (prashasta deshasambhootam), properly collected (prashastechodhrutam), used in appropriate doses (yuktamatram), pleasant to the mind (manaskantam), possesses agreeable characteristic odour, color, and taste (Gandha varna rasanvitam), capable of pacifying the aggravated doshas (doshaghnam), and devoid of developing adverse effects (Avikari).

Keeping all these qualities in mind, we began crafting our exclusive Ayurveda products.
